

Multispectral Thermal Imager Request for Existing Image Data

Date of Request:

This form must be completed and approved to obtain existing Multispectral Thermal Imager image data. MTI is a space-based research and development project sponsored by the U.S. Department of Energy (DOE) Office of Nonproliferation and National Security. Image data from MTI is available to government investigators interested in employing MTI for R&D in the national interest.

General Information

Note that requestors must be affiliated with a US government organization, i.e., the requestor must either belong to a US government organization or must be funded by a US government organization to work with MTI data. For requestor, please include title (e.g., military rank, Dr., Mr., Ms) with complete name. For organization, please spell out organizational name and include any common organizational abbreviations. Also, please ensure that the requestor and date of request sections at the top of each page are filled in.
